Education

• AISSMS Institute of Information Technology

Pune, India

B.Tech in Artificial Intelligence and Data Science; CGPA: 8.1/10.00

Nov 2022 – Jun 2026

Active committee member across 3 student organizations for 2 consecutive years, serving in leadership roles including Administrator of the ACM Student Chapter, Treasurer of the Green Club, and Department Coordinator for NSS.

Experience

• Primus Techsystems

Pune, India

Full Stack Engineer Intern

Mar 2026 – Present

- Engineered a dynamic role-based access control system for Design2Quote using React, .NET, and PostgreSQL, enabling administrators to manage page-level Read, Write, and Full Access permissions across 11+ roles.
- Co-built and launched Primus Labs, a product showcase platform featuring 16+ products, using React, Node.js, and PostgreSQL; contributed to product planning and feature prioritization as part of a 3-member team. [\[Live\]](#)
- Developing an MCP-powered chatbot using React, Python, Flask, and the Groq API, with custom toolsets defined through `tools.yaml` to enable interaction with project-specific capabilities.
- Developing a Master Data Governance application using SAP CAP, SAP HANA, and React; creating CDS data models, deploying services, and enabling data management through a React-based user interface.

• Škoda Auto Volkswagen India

Pune, India

Project Intern

2025 – 2026

- Built an AI-assisted content pipeline using Google AI Studio to convert PowerPoint-based training material into editable narration scripts and voiceovers, streamlining the creation of an LMS package for the Sales Department.
- Developed interactive learning content, including quizzes, and contributed to communication and project coordination as part of a 3-member team.

Leadership & Technical Achievements

• AISSMS IOIT ACM Student Chapter

Pune, India

Treasurer; previously Administrator

2024 – 2026

- Managed financial planning, budgeting, and expenditure tracking for 50+ technical events, overseeing budgets exceeding INR 2.5 lakh.
- Standardized operational workflows and documentation practices across organizing teams to improve consistency in event execution.

• ACM India Summer School 2026

VIT Vellore

Systems for Machine Learning

Jun 2026

- Selected among 40 participants from 291 applicants for a competitive residential program covering ML systems, distributed ML, ML compilers, hardware acceleration, Edge AI, and Explainable AI.
- Learned from researchers and faculty from IITs, IISc, VIT, and Qualcomm through lectures and hands-on technical sessions.

• ACM India Summer School 2025

FLAME University, Pune

Immersive Realities: Demystifying AR, VR, and HCI

2025

- Explored AR, VR, HCI, and immersive computing through hands-on technical sessions; contributed to the Best Project Award-winning Time Travel AR/VR experience. [\[Blog\]](#)

• Summer Training Program

Walchand College of Engineering, Sangli

Accelerated Computing & Generative AI

2025

- Completed a 12-day residential program organized under CDAC's National Supercomputing Mission, gaining hands-on exposure to OpenMP, MPI, CUDA, OpenACC, RAG, and deep learning systems.

Skills

Languages

Python, C++, SQL, JavaScript

Frameworks & Libraries

React, Flask, .NET, PyTorch

Databases & Platforms

PostgreSQL, SAP HANA, SAP CAP

Tools & Technologies

Git, Docker, REST APIs, MCP
